MORE ABOUT FACTORIES. - "Ex-Goyernor Patton, of Alabama, in a letter to the South, says that the dividend paid by the Augusta cotton mills is over 20 per cent a year. A cotton mill at Petersburg, Va., pays 25 per cent a year. One at Columbus, Ga., pays over 20 per cent. The mills in this State do at least as well. And at this very time the New England mills are struggling along with small profits, and even talk of working short-time so as to reduce stocks and improve prices. The difference between their feeble and sinking condition, and the vigorous activity of the Southern mills is accounted for by the "five cents a pound" advantage which the Southern manufacturer has in his tilt with New England .- Wil-

mington Journal. "Cotton and almost every other kind of manufacturing in this State can, with proper attention, be made to pay hand-some dividends, as all of the cotton mills now running do. Let our capitalists unite and continue to multiply cotton and other manufacturing estabishments until no other State in the Union excels the number and quality of her manufacturies. This is the road that is destined to lead our people to competency, wealth and influence; and the sooner our people take it and resolve to employ their means and energies in this way, the better it will be for them and the State .- Greensboro Patriot."

We present the above extracts from two of our State exchanges, by way of again calling the attention of our citizens and the city authorities to the

The city will not lose one cent of taxes by making the offer to exempt, for the term of ten years, the capital employed in building and fixtures.

per annum. The city need not relinquish its right to tax the ground on which such factories may be built. We do not ask the Commissioners to give up any source of revenue that the city now enjoys. But we do maintain that the municipal authorities by offering the limited ex-emption from taxes, of which we have spoken, upon buildings and machinery, may really increase the city revenues. This benefit to the city finances would result from the enhanced value of city property generally, which everybody knows results from additions of population and augmented business transac-

THE STATE FAIR-A DESERVED COMPLI-MENT TO COL. T. M. HOLT .- The Greens-Post, in speaking of the coming State

"We are going to have a grand State Fair at Raleigh this Fall, and, as it is a State matter, I have thought it proper to sond you a brief sketch in reference to the approaching Fair, and the principal personage in its management.

The present President and Chief Ex ecutive officer of the State Agricultural Society of North Carolina is Thos. M.

Holt, Esq.
Situated on the Haw river, in the famous county of Alamance, is the cotton factory and flouring mills of Holt & Moore, the most flourishing, profitable and enterprising establishment of the kind in North Carolina. The principal director and owner of this valuable property is Thomas M. Holt, a man, none the less remarkable for his reticence and retiring disposition from an outward sense and view, than for his vigorous and energetic business qualifications. Mr. Holt is one of the men of the times, and fully equal to the "demand of the hour." A self-made man, and no one person in the State enjoys a greater portion of the confidence of the people than he, especially from a business point of view. Last year when the Hon. Wm. A. Smith resigned the presidency of the North Carolina importance of getting up at least two cotton factories in the city. Railroad, the Company and Directors, at their first meeting, unanimously at their first meeting, unanimously elected Mr. Holt to fill the vacancy. A majority of the directory were of a different political school from Mr. Holt, but discarding all political feeling, as they did, and, notwithstanding Mr. Holt's democratic proclivities, he was unanimously elected. His entire fitness for the position, his general reputation and known business qualities mark him as the man for the responsible position. Since his election the road has, as it did under his predecessor, enjoyed good fortune, and is destined for much in the future. As President of the road he gives the stockholders and the gen eral public entire satisfaction, and in return he has been re-elected to the same position without the least murmur of opposition. But Mr. Holt is not only interested in manufacturing and railroad matters. Agriculture comes in public highway near the North Carolina for a large share of his time, labor and

M. Holt be elected President of the State Association, and he was elected without the slightest opposition, and no sooner had he been elected than did the opera-tions begin for "reconstructing." The old excuse, one mile from Raleigh, called the "State Fair Grounds" (a very poor and lame excuse,) was dismantled and a handsome location, within three miles of the city, on the N. C. R. R., purchased. But little would have been done to give the State a first-class FairGround and exhibition had not Mr. Holt been elected Chief Executive officer, and had he not allowed his name to go on the back of paper to raise the necessary advancements. Next season North Carolina will be able to boast of a Fair that will stand a comparison with the Fairs of our leading States North, and all will of the week, from May to October, flowbe due to the pluck, energy and liberal business disposition of Thomas M. Holt, and his faithful Secretary, Capt. R. T. Fulghum. Mr. Holt don't meddle with politics; he confines himself strictly to business. Certain it is that no one is doing more to practically develop the resources of his State than he His mills at Haw River are monuments of industry and indefatigable labor and enterprise. The Fair Grounds at Raleigh are evidences of his liberality, thrift and general interest in the welfare of the old commonwealth. His election twice as President of the North Carolina Railroad is a testimonial from the owners of that corporation that his remarkable common sense administrative powers and abilities, his honesty and integrity, are duly appreciated by an enlightened people, who are not in sensible to the importance of having the proper man in the proper place."

EDUCATIONAL MEETINGS .- The school fund of Raleigh Township for the pregent year will be more than three thousand dollars. This sum may be supplemented by assistance from the Peabody Fund and other sources, and by individual supscriptions and contributions, so that it will be sufficient to maintain two graded schools ten months, one for white and the other for colored child-

To the end that these schools may be established, it is the request of many citizens of Raleigh, including the Mayor of the city and the Chairman of the School Committee, that all persons who are intere-ted in establishing a public school in the city for white children will meet in Metropolitan Hall on Monday evening. Se Prember 1st at 8 o'clock; and that all who are interested in establishing a school for colored children will meet in the same place on Wednesday, September 3rd, at 8 p. m.

FACTS STRANGER THAN FICTION.

Two Ladies of Madison. Georgia, fall Heir to Twelve Millions of Dollars in France—They Leave for Europe to Claim their Princely Fortune Next Week.

In our issue of yesterday we stated

the fact that two ladies of Madison,

Georgia, had fallen heir to an immense

estate in France. The rumor was in

circulation about a week or ten days

ago that an old lady living in Wilkes

county had received intelligence that

she was the heir to about eight millions

of dollars. But it now turns out, upon

the most reliable and unmistakable evi-

dence, that Mrs. Virginia M. Campbell

and her niece, Mrs. Elvira Chambers, of

Madison, Georgia, are entitled to not

eight, but twelve millions of dollars,

now awaiting in France to be claimed

by these fortunate ladies. Mrs.

Campbell is a widow, about seventy

years of age. Her niece, Mrs. Chambers, is also a widow, aged about

thirty-six. The vast property which they have inherited belongs to the Ren-

nauleau estate. Information in regard

to it was received by them about three

months since, and by the advice of a gentleman in Madison, who says that he

was a law partner of Hon. Judah P. Benjamin, they at once wrote to the latter at London, asking him what

TORTH CAROLINA ALMANAC, 1873

Calculated by Dr. Craven, and compiled by

L. Branson, printed on fine-sized and calen-dered paper, neatly and elegantly. It contains many useful recipes, much valuable statistical matter, and many

AGRICULTURAL

items. It is emphatically an AGRICUL TURAL ALMANAC. It is different from

TURAL ALMANAC. It is different from every other Almanac; has been published a number of years and sold successfully.
It is, we think, certainly as good if not better than any other.
A few still on hand—order soon.
